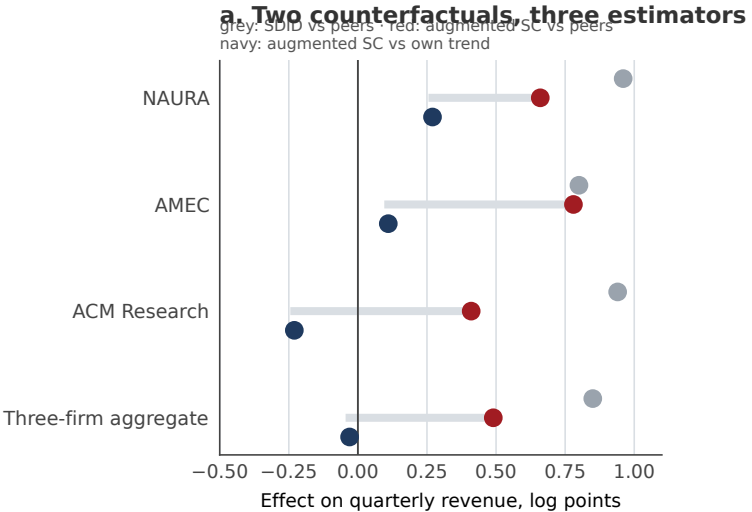
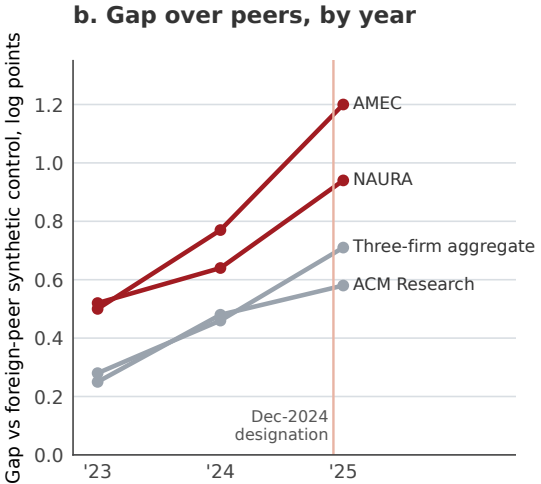
The counterfactual decides the size of the feed; the list did not change it

Left: large against foreign peers under either estimator, small against each firm's own pre-2022 trend. Right: the gap over peers rose further in 2025, after the December 2024 designations (aggregate +0.24, rank 2 of 16; AMEC +0.42, rank 1 of 16).





Source: seasonally adjusted quarterly revenue panel, 2017Q1–2025Q4, 15 foreign donors; placebo ranks in Appendix B. Values from the clean re-run of 25 October 2026 (spec_curve_rerun.py; yearly gaps from the quarterly gap paths of Appendix Figure A2).
